

Circle K International

Why should I help support/sponsor a CKI?

Live to serve, love to serve. That is the motto of Circle K International, the largest collegiate community service organization, dedicated to serving the world through its tenants of service, leadership and fellowship. It is one of Kiwanis International's sponsored youth programs, and without Kiwanis, we cannot grow and develop as a community. Still need convincing? Here are some reasons why you should help sponsor a CKI or support a nearby CKI.

Circle K International is a **home** for college students, to allow them to discover their full potential as a student and a leader. Helping support a CKI will allow you to reach an audience of educated, young adults who are already dedicating their lives to the community around them.

As an international organization, we have the support of thousands of Circle K members from around the world, including countries such as the Philippines. At the same time, however, we are also a close community. Each club is able to have a focus on each individual member, so that everyone's leadership potential can be developed.

Circle K'ers are energetic, motivated and are willing to undergo long hours to help those in need, even if it's 2AM. This dedication and spirit is transferred into everything they do, which will allow you to bring constantly new and fresh ideas to your own Kiwanis clubs and communities.

Circle K International is part of the Kiwanis **family**. That means we support each other, provide service opportunities for each other and help each other at local events. Not only do Circle K members provide Kiwanis Clubs with service opportunities, but Circle K members love participating in a variety of service programs and fundraisers that are organized by their sponsoring Kiwanis Club (or those nearby).

Circle K members are the future of Kiwanis! Being from a background of service and having already worked within the K-Family, Circle K members are ideal future Kiwanians who often graduate and join their local Kiwanis club or a nearby Young Professionals Club. Sometimes, they even go on to chartering their own club!

Circle K **needs your help**. Each Circle K Club is sponsored by a local Kiwanis club, and without the support of our Kiwanis clubs, we would not be the passionate organization that we are today.

Circle K International has the most service hours per member of any branch of the Kiwanis organization.
Make a difference. Sponsor a Circle K club today.
